

**SAKRETE® Asphalt Repair**

For repairing asphalt driveways, walks and parking areas. Not to be used in the building of new asphalt structures.

30 kg

**KING Non-Shrink Grout 410**

All-purpose grout for base plates of machinery, columns, railings and when grouting anchor bolts of all sizes.

25 kg

**SAKRETE® All-Purpose Sand**

A dry concrete sand. For use in concrete or sand mixes, on icy sidewalks, greasy areas and as soil conditioner.

30 kg

**St. Marys Portland Cement**

Mix with various aggregates and water to produce a concrete mixture.

40 kg

**St. Marys Masonry Cement**

**T-N** Mix with sand to produce a mortar for bricks and blocks.  
**T-S** Mix with sand to produce a mortar for bricks and blocks for load bearing walls.

**KING Construction Sand**

A "fine" natural mortar sand. Use for making mortar mix, sand mix and grouting.

30 kg

**KING Gravel**

A natural crushed stone ranging in size from 3/8" to 1/2". Use for making concrete mix, water drainage, and driveways.

30 kg

**KING Limestone Screenings**

Pure limestone screenings provides an excellent base for interlocking brick and patio slabs. Discourages growth of weeds and ant colonies.

30 kg

**KING Jointing Sand**

For joints between interlocking stones and field stones. Pour onto surface, sweep into joints and mist with water.

25 kg

**KING PermaSand Brown/Grey**

Polymer modified jointing sand to resist sand erosion in joints between interlocking stones and field stones. Pour onto surface, sweep into joints and mist with water. Binds firm when wet.

25 kg

**KING Play Sand**

For sand boxes. A high quality natural beach sand. Ideal for building sand castles.

20 kg

## THE CONCRETE CENTRE Quick and Easy Calculations

**RapidPost Posts (Standard fence)**

2 x  = 1 Post

**Fast-Set Concrete slabs**

4 x  = 6 sq. ft.

**PSI 6000 High strength concrete mix**

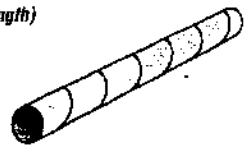

2 x  = 3 sq. ft.

**Concrete slabs (4 inches thick)**

	1FT. WIDE	2FT. WIDE	3FT. WIDE	4FT. WIDE	
1FT. LONG	0.7	1.3	2.0	2.7	BAGS
2FT. LONG	1.3	2.7	4.0	5.3	BAGS
3FT. LONG	2.0	4.0	6.0	8.0	BAGS
4FT. LONG	2.7	5.3	8.0	10.7	BAGS
5FT. LONG	3.3	6.7	10.0	13.3	BAGS

**Sakrete® Concrete Mix SONOTUBE® (For each 4' length)**

1.5 x  = 6" Diameter  
 3 x  = 8" Diameter  
 4.5 x  = 10" Diameter  
 6.5 x  = 12" Diameter

**Mortar Mix (3/8" joints)**

1 x  = 33 Bricks  
 TO LAY BRICKS  
 1 x  = 12 Blocks  
 TO LAY BLOCKS

**Parging Mix**  
 For parging concrete blocks or poured concrete

1 x  = approx. 42 sq. ft.

**Sand Mix**  
 Smoothing-Topping  
 For jobs less than 2 inches thick

1 x  = 12 sq. ft.

**SAKRETE Concrete Mix**

To be used where a thickness of 5 cm (2") or more is required. For making walks, floors, patios, steps, setting poles and posts. 30 kg

**KING PSI 6000 Concrete**

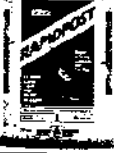

High strength air entrained concrete mix protects against freeze/thaw damage. Excellent workability. Ideal for sidewalks, slabs, steps and patios. 30 kg

**SAKRETE FAST-SET Concrete**

For fast concrete construction-allows same day use. Ideal for cold weather applications. Fast setting of concrete slabs, walks, poles and posts. 30 kg

**KING RAPIDPOST**

Rapid setting concrete mix for posts and poles. Pour from bag to hole. No need to brace - sets in minutes. 30 kg

**SAKRETE Sand Mix**

Use where a thickness of less than 5 cm (2") is required. For filling cracks in concrete and between flagstones, grouting. Can be finished smooth for resurfacing old concrete. 30 kg

**SAKRETE Mortar Mix**

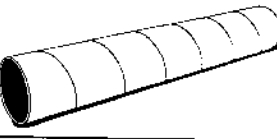

For laying brick, concrete block or field stone in construction of chimneys, walls, planters, outdoor grills. For pointing up or repairing brick walls. 30 kg

**KING Parging Mix**

Designed specifically for parging concrete blocks or poured concrete, above or below grade. Easy trowelling. Superior bonding. 25 kg

**KING Builder's Tubes**

Prefabricated fibre tube which serves as a form in producing round concrete supports. For below ground-line concrete placement. Brace above 2 ft. of ground-line.

**KING top'n bond**

**Self-bonding cement**  
For smoothing uneven concrete surfaces. Self bonding. May be feather edged. Apply up to 1/2" thick.

**KING swift-set**

**Fast concrete repair**  
Quick patching repairs on sidewalks, curbs, driveways, floors, steps, parking garages. Apply up to 2" thick.

**KING flow-stone**

**Anchoring cement**  
Ideal for setting anchor bolts, screws, posts, railings and other fixtures in existing concrete. Level concrete floors under carpet or soft tile.

**KING plug-tite**

**Instant water plug**  
Stop active water leaks through breaks in all concrete and masonry surfaces.

**KING XYPEX high'n dry**

**Concrete Waterproofing by Crystallization**  
A surface applied chemical designed to waterproof concrete through crystalline growth. Waterproof bare concrete basement walls, foundations, pools & cisterns.

**KING brush'n seal**

**Waterproof masonry coating**  
Use to waterproof and decorate concrete and masonry surfaces. For basement walls, foundations, swimming pools and cisterns. Dries white.

**KING Concrete Adhesive**

**Concrete Adhesive**  
For bonding new cement repairs to existing concrete and masonry surfaces. Brush on or mix in. Makes repairs that hold.

**Granastar Colour for cement**

Colour for cement based products. Add colour to concrete, mortar, stucco, grout.
