

ROOFING

SIDING

## SUPER VIC

SUPER VIC's greater strength permits spans of up to 24". Please ask for our Technical Bulletin with loading tables.  
*FEATURES* 3/4" high ribs at 10" centres, covering 30".

## BARNMASTER

A good 5-rib sheet for stocking dealers. This sheet will work well on both roof and sidewall applications.  
*FEATURES* 1/2" high ribs at 8" centres, covering 32".

## VICTORIA

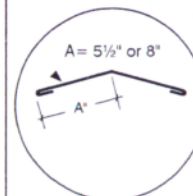

A good 6-rib sheet for stocking dealers. This sheet will also work well on roof and sidewall applications.  
*FEATURES* 1/2" high ribs at 6 3/8" centres, covering 32".

## DIAMOND RIB

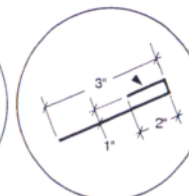

Installed vertically or horizontally, this is the perfect sidewall profile for that "professional" look!  
*FEATURES* 3/4" high ribs at 6" centres, covering 30".

## CHANNEL WALL

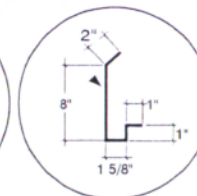

Designed especially for wall cladding applications and decorative accents (e.g. soffits).  
*FEATURES* 1/2" high ribs at 6 3/8" centres, covering 32".
